PROJECTS

FarmSync - AI-Powered Agriculture Assistance Platform Next.js, TypeScript, React Query, Tailwind CSS

[Live Demo: FarmSync](#)

- Developed a scalable agri-SaaS platform featuring multi-role access (Farmer, Agronomist, and Admin), farm registration, analytics dashboards, a multi-vendor marketplace, and interactive 3D profile avatars using Next.js and TypeScript.

Momentum - Productivity & Collaboration Platform React.js, TypeScript, Supabase, PostgreSQL, React Query

[Live Demo: Momentum](#)

- Built Momentum, a scalable productivity platform with collaborative workspaces, hierarchical task management, AI-powered assistance, role-based authentication, and real-time data synchronization using Next.js, TypeScript, and Supabase.

ACHIEVEMENTS

Advitiya X JPD Hackathon | 1st Place

Won 1st place at a hackathon hosted by IIT Ropar, securing a perfect judges' score of 100/100 for an AI-powered recruitment platform with intelligent resume-to-job matching and candidate screening.

Hackmivo Hackathon | 2nd Place

Competed against 50+ teams and secured 2nd place for developing a healthcare management platform featuring patient management, appointment scheduling, secure authentication, and an intuitive frontend built with Next.js and TypeScript.

WORK EXPERIENCE

Frontend Developer Intern | Zolosoft

Mar 2026 - May 2026

- Engineered and shipped responsive, component-driven UI features using Next.js, Tailwind CSS, and REST APIs, reducing page load times by ~20% and improving UI consistency across multiple client-facing modules
